

Subject: Introducing the Fusion Inquiry Framework (FIF)

Dear Families,

We are excited to share with you our new Fusion Inquiry Framework, a unified approach to education and care across Imagine Education Group.

This framework reflects our belief that every child is:

- ✧ Capable
- ✧ Curious
- ✧ A unique contributor to their community

Through rich relationships, playful exploration and responsive teaching, children learn about themselves and the world around them.

What will you see?

- ✓ Educators deeply listening to children's ideas
- ✓ Learning visible in each studio and outdoor environment
- ✓ Documentation that shows children's thinking and progress
- ✓ Studio planning that responds to children's strengths and interests
- ✓ Strong partnerships with families at every stage

Our curriculum blends:

- The Early Years Learning Framework V2
- The Victorian Early Years Learning Framework (VEYLDF)
- The Reciprocity Approach
- Abecedarian Approach Australia (3a)
- The Hundred Languages of Children
- Early Childhood Learning Trajectories
- National Quality Standards (NQS)

Together, these ensure high-quality learning experiences every day.

How families are part of the journey

You are your child's first teacher.

We invite your voice to shape our environment and planning by:

- Sharing your child's interests and strengths
- Contributing ideas, stories and perspectives
- Engaging in learning conversations with educators
- Responding to visible learning documentation

Your partnership helps us support your child's confidence, identity and joy in learning.

Our promise

- ✧ To know each child deeply
- ✧ To honour their identity and wellbeing
- ✧ To celebrate their capabilities
- ✧ To grow alongside your family

We look forward to continuing this exciting journey of discovery with you and your child.

Warmly,

Imagine Education Group — Pedagogy & Curriculum Advocates

We grow as children grow.
